

DELTA FORENSICS

LATENT PRINT SUITABILITY

December 14-15, 2020 9:00AM-5:00PM EST

ONLINE COURSE! Available globally!

** Students must have an internet connection, ink pad for practical exercise, and the ability to view jpg images**

ABOUT LATENT PRINT SUITABILITY

This 2-day training class is designed for students and forensic science practitioners whom may be tasked with the examination of physical evidence to make suitability determinations as to any latent impressions developed on evidence.

Day 1:

Live, online lectures will be conducted on the areas of overall fingerprint patterns, features, anchor points, crease formations, anatomical sources, and some basic qualitative/quantitative aspects of friction ridge impressions. Students will discuss the various factors that may affect the appearance of developed latent impressions, including an overview of negative findings and distortion factors. Students will also be instructed on the areas of exemplars that may be required from victims/suspects/elimination prints in order for an examiner to conduct a full examination based upon the overall features and shape of the developed latent, to include 10-prints, palm prints, and major case impressions. (8 Hours).

Day 2:

Students will participate in a distortion exercise to assist with understanding visual indicators and assessments, as well as some digital capture methods. Pre-made scans of lifts and previously captured latents will be discussed to assist the class as a whole in their understanding of the various considerations that are used to in the decision-making process. During the discussions, the instructor will conduct live analysis on various latent impressions to assist in the understanding of the examination process that follows the recovery process from the perspective of a latent print examiner to demonstrate the features used during the comparative process. (8 Hours)

This course has been approved by the IAI Latent Print Certification Board and Crime Scene Certification Board for continuing education towards the certification program.

\$250

ABOUT YOUR INSTRUCTOR:

Andrew R. Reitnauer is a Certified Senior Crime Scene Analyst (CSCSA) through the International Association for Identification. For the past 14 years, he has been an active Latent Print Examiner, Crime Scene Responder, and Section Supervisor. In addition to casework duties, Andrew has also served as a primary trainer for new examiners and outside agencies. He is a Past- President of the New York Division of the IAI and is an active member of multiple IAI Divisions and organizations.
