

ABMDI Registry Certification Test Prep (Webinar, 5 hrs) ***DEATH INVESTIGATOR SERIES***

COURSE DESCRIPTION

The ABMDI Registry certification is the initial certification offered by ABMDI and is used to demonstrate that an individual has the basic knowledge and proficiency to conduct a thorough medicolegal death investigation. In order to complete the certification an individual must pass a 240-question registry exam. This course is designed for Medicolegal Death Investigators who wish to pursue this certification. Students will be provided with a comprehensive review of the text, *Medicolegal Death Investigator*, from which the exam is based, practice questions, as well as an overview on the application requirements and exam formatting.

This is a live webinar and must be attended in-person to receive a certificate. Instructor-student interaction will be ongoing throughout the course, so students will be expected to not only be present, but also to participate just as they would in a face-to-face course.

You will receive a PDF workbook to download via email prior to beginning the course.

COURSE LOGISTICS

Instructor: Joanna Goldman

Location: Wherever you can login!

Date & Time: Sunday, June 6 @ 12 – 5pm EDT

Cost: \$150
